## PROJECTS

### Library Management System (JAVA)

*MCA 1<sup>st</sup> sem project*

- Library Management System is an application which refers to library systems which are generally small or medium in size. It is used by librarian to manage the library using a computerized system where he/she can record various transactions like issue of books, return of books, addition of new books, addition of new students etc.
- Front-End:- I have designed the front-end on java swing
- Back-End- I have used MySql database for backend
- MySql JDBC connector is used for connecting the application to Database

## Happy Health Appointment (HTML, CSS, JS, PHP, SQL)

### *MCA 4<sup>th</sup> sem Major Project*

- It is a Web based application that allows individuals to book appointments online through any web-connected device, such as a computer, laptop, smartphone or tablet.
- It is an automatic system of booking appointments and does not need the intervention of any medical staff.
- In this web based application user can book an appointment in registered hospital or book ambulance or buy medicine
- Front End – Front-end is designed on HTML,CSS,JS
- Back-End— Php, sql, with apache server is used for backend
