Java micro service

EXPERIENCE

SENIOR JAVA BACKEND (MICROSERVICE) DEVELOPER

In Milaan IT Projects Private Limited / Patna / 2021 (Worked on backend Service)

- **REST APIs built in Java, Sql, Hibernate and Spring-boot.**
- **Familiar with react-Js.**
- Designed and implemented Micro Service for android mobile application.
- It is an E-Commerce Mobile application in this app we can sign up as a shopkeeper or a customer and shopkeeper can manage their customer system, stock management system, employee management system. He can add their product with its detail, shopkeeper can also add their own customer for to maintain their bill-book and also can add their employee to maintain employee's attendance and salary will be automatically calculated according to his attendance and shopkeeper can also pay their salary through this app. In customer part customer can add product to cart, he can place order by COD or Online Payment and also can change his personal detail he can order product on many addresses and can check his order status like when it was packed, when it will be delivered etc.
- I am working on **Milaan Mart** and **Milaan Search** projects.
